ELECTRICAL ENGINEERING AND APPLIED SCIENCES**

Contents

Volume 2

Number 2

October 2019

<i>No.</i>	<i>Title</i>	<i>Page</i>
1.	Detection and Classification of Double Line to Ground Faults in a 138 kV Six Phase Transmission Line Using Hilbert Huang Transform <i>Gaurav Kapoor</i>	1
2.	Linearization - Advantages and Shortcomings Toward Control System Design <i>Muhammad Nizam Kamarudin, Sahazati Md. Rozali, Mohd Hendra Hairi, Alias Khamis, Abdul Rashid Husain</i>	17
3.	Output Power Forecasting for 2kW Monocrystalline PV System using Response Surface Methodology <i>W. R. Upkli, A. A. Rahman, I. A. W. A. Razak, Z. H. Bohari and A. N. Azmi</i>	23
4.	Conceptual Design of Co-Axial Floating Multiple-Rotors Water Current Turbine (FMRCT) <i>M. A. Abdul Wahap, M. H. Maslan, M. N. Mansor, M. I. I. Zaidan, M. S. A. Mohd Roslan, M. A. F. Abdul Halim</i>	33
5.	Experimental Investigation on Thermoelectric Generator for Battery-Charger Based Oven <i>Chow Khoon Keat, Kong Kok Hong, Magdalene Goh Wan Ching</i>	39
6.	Development of Mini Generator based on Wind Turbine Principle <i>Sahazati Md. Rozali, Rozilawati Mohd Nor, Muhammad Nizam Kamarudin, Mohd Hendra Hairi, Muhammad Atikkullah Abdul Rahim</i>	45
7.	Power Quality Issues of Grid Connected DFIG Wind Farm System <i>Shazly A. Mohamed, Montaser Abd El Sattar</i>	49
8.	128-QAM Based mm-Wave Communication (5G) Architecture <i>Abdullah Al-Mamun Bulbul, Md. Tariq Hasan, Faysal Iqbal, Md. Bellal Hossain</i>	57
9.	Engineering Skills: Employer Satisfaction Among Malaysian Graduate Engineer <i>Hasan Saleh, Hendrik Lamsali</i>	63
10.	Power Line Interference Removal from ECG Signal Using Different IIR Filters <i>Rayhan Habib Jibon, Etu Podder, Abdullah Al-Mamun Bulbul</i>	69
11.	Comparative Analysis between OFDMA and SC-FDMA: Model, Features and Applications <i>Farjana Imam, Mehenaz Akter Mitu, Sonia Akter, Ety Khanam, Shikha Rani Das, Abdullah Al-Mamun Bulbul</i>	75

MESSAGE FROM CHIEF EDITOR

Assalamualaikum and Greetings to all,

Welcome to the 4th edition of the International Journal of Electrical Engineering and Applied Sciences (IJEEAS). IJEEAS is an open access journal with the aim of publishing a variety of research articles in Electrical Engineering and Applied Sciences. The focus is mainly in the field of Sustainable Energy, Control System and Industrial Automation. Our publication will contribute towards new exploration of knowledge and state-of-the-art technology for the scholars and professionals in these fields.

IJEEAS promotes research into all aspects of speech input and output, including theoretical, experimental, testing, base technology, and applications that will provide valuable insights of current research and innovation activities. Prospective authors can submit their original contributions according to topics of interest include sustainable and renewable energy, energy storage and management in grid application and renewable energy integration, power system quality, analysis and protection, power electronics, electric machines design and drives, linear and non-linear control systems, industrial automation, mechatronics and intelligent robotics, applied sciences, mathematical modelling of storage devices, energy auditing and engineering and technical education (TVET).

On behalf of the editorial board, I would also like to thank all researchers and IJEEAS's editorial members who have contributed to the success of this edition. Also special thanks to all readers who spare their time supporting IJEEAS.

Prof. Ir. Dr. Marizan bin Sulaiman
Chief Editor IJEEAS
